Welcome and hello at FutureNet

We invite you to become a member of our successful, globally operating Futurenet Multimedia Network Club. Futurenet offers the most fascinating and at the same time the most brilliant opportunity to develop your own online business.

If we have a closer look on what is going on in the internet, we can observe an **extreme growth of the MULTIMEDIA sector**. And this is what our extensive Futurenet product portfolio is about:

Video clips, movies, apps, e-books, e-learning tools, pics, footages, games, tutorials, flash apps, music clips, music, sounds, templates for websites, print templates, cartoons, birthday cards and many more.

You decide if you use our offer just as a consumer or if you prefer to upload your own portfolio and make additional money with these offers.

The greatest advantage is that you develop a permanent income - although you simply need to invest ONCE between 10 and 1,685 \$. If you want, we will pay out your commission on a daily basis.

By means of optional systematic upgrade, you have the option to start with a small amount and use your revenues for upgrading your position.

Futurenet now offers you the chance to develop your own Business in an easy way. Share these fantastic opportunities with other people! Our offer will certainly be also interesting for others. These people will then become your person-

al Futurenet friends. Doing the same thing as you do, they will develop their own business together with you.

The Futurenet offer is valid anywhere in the world, starting from day one. Thus, you will face no restrictions of any kind regarding your personal friends and team partners. Of course, the no-restriction-rule also applies to your potential Futurenet income.

And at this point we say: **Welcome in the Futurenet Multimedia Club**

Your start

If you are interested in starting a new business, two questions will be of critical importance at the beginning.

1. How much does it cost, i.e. how much will I have to invest in order to start?
2. How much money will I have to invest every month?

The answers to both of these questions are quite easy and you will enjoy hearing them.

The start into your successful future requires just 10 \$!

If you do not have another choice, you can choose to start your Futurenet Business already with this sum.

However, you have more opportunities.

We do not want to conceal that it makes more sense to invest more than 10 \$ into your kick-off.

Precisely spoken, you have the following options:

10, 35, 85, 185, 685 or 1,685\$.

The second question regarding the monthly costs is just as easy to answer: there are none. You really invest only once into your Futurenet Business. Nonetheless, you and particularly your partners will generate permanent revenues. This means that you will build a long-term income based on successive revenues without the need to ever invest your own money again.

The higher your starting amount is, the more Media Points you get. More Media Points mean more fantastic product offers, which you may choose from.

Furthermore, a higher starting amount grants access to a bigger income potential for you.

On the following pages, you find the most important details about our marketing plan. Moreover, you will also be able to watch our video clips on this issue. You will immediately grasp the outstanding opportunities of the Futurenet marketing plan!

Regardless of your starting amount, you may choose to upgrade your position at any point, if you need more Media Points for our multimedia offer or if you just grasp how brilliant our system really is. If you prefer, you may start with a smaller amount and then use your Futurenet revenues for upgrades to higher positions.

The Internet

In the recent years, the Internet has gained an increasingly greater influence on our lives. All experts are unanimous in stating that this development progresses more and more. The Internet will have a still stronger influence on human lives in the years to come.

Nowadays, the internet gives and offers us chances and opportunities unknown so far. Practically, you have access to the whole world from your room.

You can communicate, in the simplest way possible, across the borders without any language barriers. Thanks to introduction of smartphones and tablets into the market the development has gained a critical momentum in the recent years.

And how it is with you? What for are you using the Internet TODAY?

How have you been using the internet for five, ten or fifteen years? You can certainly see a change in the way you have used the internet.

The internet offers increasingly more opportunities to earn money. The sales that have

been generated over the internet today are gigantic but the experts still predict their significant growth in the years to come.

Do you already use the internet to earn money? Does your computer already work for you? If the answer is YES, then you know that wonderful feeling. If the answer is NO, then we can assure you that it is fantastic when you switch your computer on and see in your business backoffice that you have earned money again.

Join us in the following the exciting future. Use the Internet from now on to make money!

With the membership in the Futurenet Multimedia Network Club, we offer you a fantastic chance to turn your computer, laptop, tablet or smartphone into a money-making machine.

The internet and the multimedia

The internet is in permanent development with millions of offers flowing into it every day. If we look more closely into the developments of the most recent years, we can see two areas of extreme growth: the SOCIAL MEDIA and the MULTI MEDIA.

To be more exact, more growth will still be observed in the two areas in the future, since they both are already now at the forefront with use of the internet.

Below are a few figures, data and facts concerning use of the internet:

Internet users spend nearly one quarter (23 percent) of their total time spent on-line in the social networks like Facebook, Google+ or Xing, while, for example a year before it was only 14 percent. This is what BITKOM, German federal association of high-tech companies, has reported to us on the basis of a survey carried

out by the “comScore” market research company.

“The on-line social networks are among the central starting points in the web which combine different uses and contents in a single platform, said Bernhard Rohleder BITKOM’s CEO.

The music, photo and video web sites come only second, with their users spending there nearly 9 percent of the time they spend on the internet (compared to 7 percent last year).

The social media is the number 1 area, with the multimedia coming only second in terms of

use, of the internet.

Therefore, what could be more natural than to combine the two most used areas of the internet by employing the most sensible marketing method, which is the network marketing?

This is exactly what we have done at Futurenet. And now YOU have an opportunity to build, over the coming years, your own on-line business for yourself that will be generating for you earnings that you can daily turn into cash.

Futurenet

On 1st November 2014, after two years of preparations, Futurenet will be available in six languages. The company is supported by experts in such areas as marketing, business consultancy and the internet.

The company offers every man in the world an opportunity to build one's own business. We have intentionally decided to take advantage of the network marketing as the distribution format because the network marketing gives every man the chance to immediately benefit from the boom in the social media and multimedia sectors.

The marketing, and first of all also the marketing planning are among the most **modern tools that the internet can offer now.**

You can now make payments on-line through different web portals. You can also make a bank transfer in a very simple way. We have a partner at Western Union who enables every man in the world to make a ONE OFF payment, and with the bitcoins we offer you the most modern payment method. You can encash your commission fee every day. Futurenet will keep you informed of the most recent developments through VIDEO-NEWS-LETTERS.

The Futurenet Multimedia Network Club

The Futurenet Multimedia Network Club already at the start offers a multi-language library containing thousands of offers in different product categories:

Videos, movies, apps, e-books, e-learning, photographs, footages, games, tutorials, flash applications, music videos, music, sounds, website templates, print templates, cartoons, birthday cards and many more.

The supply of the multimedia products is being broadened every day. We have set ourselves the target to build the largest multi-language on-line multimedia library.

You are welcome to join us.

Obviously, on the one side you can take advantage of all the offers by yourself, but you also have an opportunity to sell your own personal multimedia offer through the platform of the club. In this way, in pace with building your business you can fix a second income for yourself.

6 MARKETINGPLANS

We at Futurenet work with the same marketing plan in 6 versions. Our 6 marketing plans differ just with regard to the \$ amounts: 10, 25, 50, 100, 500 and 1,000 \$.

Conditions, qualifications, remunerations and calculations function in all 6 marketing plans according to the same principle. If you would like to develop your own Futurenet business, you can opt to start right away in all 6 marketing plans. However, you may also start with smaller amounts or even with the smallest offered opportunity of just 10 \$.

Important to understand: you may only participate in the 25 \$ marketing plan if you are also part of the 10 \$ plan. This rule applies to all mentioned amounts. If you want to start in the 1,000 \$ marketing plan, you will also have to participate with the other 5 amounts.

Therefore, you have the following 6 starting options:

10\$	=	10\$
10\$ + 25\$	=	35\$
10\$ + 25\$ + 50\$	=	85\$
10\$ + 25\$ + 50\$ + 100\$	=	185\$
10\$ + 25\$ + 50\$ + 100\$ + 500\$	=	685\$
10\$ + 25\$ + 50\$ + 100\$ + 500\$ + 1,000\$	=	1,685\$

You will find detailed explanations in the video clips about the marketing plan and in our dedicated marketing plan leaflet.

Professionals and all those who grasp the brilliant opportunities of the Futurenet business will surely start with 1,685 \$ right away. By means of a start with this amount, you get the maximum number of 168,500 Media Points, which you can use for all multimedia offers of our club. Needless to say that you also have the biggest potential income opportunities right from the start.

If 1,685 \$ are too much for you to begin with, you may of course alternatively choose to start with an amount of just

685\$. This option still brings you 68,500 Media Points for our multimedia offers. And with 685 \$ you participate in the first 5 marketing plans as of day one.

Are 685 \$ still too much for you? Or would you rather like to “test” if and how it all works? OK, then you may start in the first 4 marketing plans and invest 185 \$.

To invest 185 \$ into the kick-off of your own business should be doable for anyone, who is serious about it.

Of course you can also opt for a start with one of the three smallest sums: 10, 35 or 85 \$.

If you prefer to do so, you may start modestly and then continuously upgrade your position. However, please consider that

your income is directly linked to your REVENUES.

In our business, please keep that in mind, people copy the behavior which YOU show them. Your friends will ask, „Which sum did you start with? “ And you will quite frequently see that your friends will do the same as you did.

OK, so are there any arguments against a professional business launch with 1,685 \$ or 685 \$? There are no arguments AGAINST, but quite a few IN FAVOR.

We wish you good luck to take the right decision for your future!!!

Friends **bonus**

The centerpiece and first source of income in our marketing plan is the Friends Bonus. It works as follows: all members are placed in a 3x3x3 system above you. Therefore, every member has only 3 partners in his upline in level 1.

If your sponsor for instance has already 3 partners in his 1st level and YOU are one of them, the following scenario is possible: your sponsor gains more members and they will be placed in the 2nd level – **this means above YOU!!!**

Thus, you have received one or several sales partners as a „gift“.

With immediate effect, you start to earn from their revenues according to the marketing plan.

However, more important is the fact that you have one or several sales partners in your upline. If they actively start to develop their business, this will generate revenues in your Friends Tree. You will earn from these revenues in the same way, as if they had been generated by your own partners.

This feature makes the Friends Tree System of Futurenet very

attractive. However, you should never sit back and rely on presents of this kind. It makes much more sense to be active as of day one and convince as many partners as possible to join the business.

On the following pages, you will hear about the 100\$ Matching Bonus. This will help you to understand how smart it is to be active yourself.

With the Friends Tree Bonus, you participate in the product revenues generated in the 5 levels above you.

You receive the following remunerations:

Level 1 above you	5%
Level 2 above you	5%
Level 3 above you	10%
Level 4 above you	10%
Level 5 above you	15%

The Friends Bonus alone offers you already gigantic income opportunities.

As we mentioned already several times, at Futurenet you need to invest only ONCE. Despite that, you develop a permanent passive income based on recurring revenues.

How does that work?

You will find the answer together with a description of the New Position Bonus below.

One of the most brilliant opportunities of the network marketing industry is passive income based on permanent revenues. However, usually permanent revenues are linked to the obligation for sales partners, to invest repeatedly.

In reality, in the majority of companies on the market you are charged with monthly payment obligations. And this is exactly why many people decide to refrain from joining the business.

The main reason for people in

various companies to lose interest and drop out is that they are not ready to invest their own money every month.

We at Futurenet have developed a fantastic solution. Never again will you need to invest money from your own pocket. But despite of that, you and particularly your sales partners will generate continuous revenues.

How exactly does that work? On the one hand, you generate revenues from a very small part of your income. And on the other hand, you make money from the New Position Bonus.

Here comes the explanation of how you and any of your partners can transform a small part of your income into new revenues and new positions in the worldwide Friends Tree.

Your first income in the levels 3, 4 and 5 above you, will be invested into new revenues and

new positions each.

Let's have a look at a concrete example for the 100\$ Friends Tree:

Once you have earned the first 100\$ in the levels 3-5, this money will be invested into a new position for you.

Furthermore, every Friends Tree offers you the opportunity to get 3 new positions FOR FREE. How to obtain them? Have a look at the explanation of the NEW POSITION BONUS.

ALL new positions grant the following advantages:

- Every new position brings new Media Points
- Your new position is placed at the lowest free spot within the global Friends Tree – the most attractive place
- New positions open up new income opportunities

Since the systems works identically for all sales partners, you will certainly obtain sales partners within your Friends Tree who were not sponsored by you or one of your sales partners!

You might have been sponsored by an international network marketing super star. Now, you are part of his team and his Friends Tree. Nevertheless, this very same super star might be part of your team in a future Friends Tree. And then you will earn money from his revenues. With every new Friends Tree, your income opportunities grow.

The same rule applies to all of your sales partners. On the following pages, you will learn about the 100% Matching Bonus. You will see how you can gain multiple profits from the new positions.

Matching bonus

Dear friends and prospective members of the Futurenet Multimedia Club! At this point, we would like to draw your attention to the most brilliant invention since the invention of network marketing itself: the 100% Matching Bonus.

Network marketing is about supporting others to become successful. The reward for this support is the income, which you earn thanks to the revenues of others.

With the Matching Bonus, Futurenet offers you the ultimate reward for your support of your partners to make them successful and earn money.

The Matching Bonus brings you between 20% and 100% based on the revenues that your personal partners earn from the Friends Bonus.

Matching Bonus overview:

Frontline Partner	Matching Bonus
1	20%
3	40%
5	60%
6	80%
8	100%

If you have just one personal partner who earns money from the Friends Bonus, you get 20 % of this sum.

Let's assume your personal partner makes just 200\$ from the Friends Bonus this week. You get 20%, therefore you earn 40\$ Matching Bonus – in addition to your own Friends Bonus.

20% are a good start, but we would like to help you to obtain more Matching Bonus income. If you sponsor 3 personal partners, you double your Matching Bonus.

Let's have a look at another example. You have 3 personal partners. This week, each of them earns 200 \$ from the Friends Bonus. Altogether, we they earn 600\$. Your Matching Bonus amounts to 40%, which makes already 240\$. Not too bad – if we calculate your income for a whole month, we are talking about 960\$, just from your Matching Bonus.

In the chart above, you can see that 5 personal partners bring 60% and 6 personal partners 80% Matching Bonus.

Nevertheless, we would like to

pay you 100% Matching Bonus.

What you need are 8 personal partners.

100% Matching Bonus is a more than profitable deal. Let's use the same example here. You have 8 personal partners. Each of them earns just 200\$ from the Friends Bonus. Altogether, this makes an income of 1,600\$. And this means 1,600\$ Matching Bonus for you!

Come on, calculate what this means for a full month: the result is 6,400\$ Matching Bonus for you.

In this example, we have assumed an income of 800\$ of your partners. However, the Futurenet system offers much bigger income opportunities to you and your partners than just 800\$ per month.

Please calculate on your own what happens, if you and your partners will be active in the 500\$ and 1,000 \$ marketing plans. Needless to say that the

generated income will be much higher.

Go and calculate what happens, if you will work hard and develop your organization. At some point "X" in a few months or years, you will have 10, 20, 50 or even more personal partners. Calculate your Bonus for the case that these partners earn money in each of the 6 marketing plans in several Friends Trees.

You get 100% Matching Bonus in each case!!!

This is worth to start with full speed and attract more and more personal partners.

Unilevel bonus

Modern marketing plans combine several bonus systems. Apart from the Friends Bonus and the Matching Bonus, we have prepared another highlight for you: the UNILEVEL BONUS.

Depending on your qualification, you will receive income from the 6th up to the 10th level.

Unlike in case of the Friends Bonus, the Unilevel Bonus depends on the partners, which emerge in your levels 6-10 due to the natural structuring process.

What does that mean? As simply as that – the number of people to be placed in the first level of your Friends Tree is restricted to 3. Thus, you will have personal partners who are placed in the levels 2 or 3 even higher above you in the Friends Tree.

If it comes to the UNILEVEL BONUS, it doesn't matter where a partner is placed in the Friends Tree. For the purpose of the bonus, all your personally sponsored partners are placed in your first level. If you have 5, 10, 20 or more personal partners, ALL of them will be placed in your first level.

People, who will be later sponsored by your personal partners, are placed in level 2 and so on.

Upon developing your organization, you will see that the number of partner quite quickly duplicates up to the levels 6-10 above you. The revenues of these people generate your Unilevel Bonus income.

Your qualification for the Unilevel Bonus depends on the number of personal partners, whom you have sponsored in your respective marketing plan (10 – 1,000 \$).

Let's concentrate on the 100 \$ marketing plan for the following example.

If you have 6 personal partners here, you are qualified for the Unilevel Bonus in the 6th level.

Thus, you get 2 % on all revenues generated in level 6.

With 7 personal partners, you participate with 3 % in the revenues generated in level 7.

In case of 8 personal frontliners, you get 4 % in level 8; 9 personal partners generate 4 % bonus in level 9 and if you manage to gain 10 personal partner, your Unilevel Bonus reaches 6 % in level 10!

The Unilevel Bonus allows you to develop a stable income throughout the structure of your organization. Again, we as a company have increased the percentages from level to level in your favor. From level to level, you will generate potentially more and more partners, which brings you more income.

New position **bonus**

You have heard it already many times: with Futurenet, you really have to invest your own money only once. Despite that, you develop a passive income based on continuously generated product revenues. How does that work?

You have seen the principle on the occasion of the Friends Bonus. Upon the first 100 \$ income in the 100 \$ marketing plan, every partner automatically purchases a new position. And this new position generates new income.

On the other hand, the system guarantees continually new positions FOR FREE!

Every new position offers fantastic new income sources. Please remember: this applies to YOU and ALL YOUR PARTNERS.

At this point, we would like to remind you of the 100% Matching Bonus.

With every new position, the income potential of your partner increases. Moreover, you have the chance to earn the 100% Matching Bonus!

When exactly do you continually get new positions for free?

Due to the concept of the system, you get new positions and

subsequently new Media Points for free, whenever new incomes are generated due to newcomers in the levels 4 and 5 of your Friends Tree. This rule applies to your first Friends Tree and to all following trees.

What kind of performance is required from you?

You get a new position for free, whenever 50 new members including respective revenues have been created in level 4 above you.

Theoretically, level 4 above you provides space for 81 new members. The first free gratis position is yours, when you reach a number of 50 new members.

This new position is located at the lowest free spot within the global system – the most attractive spot.

Two further positions for free will be yours thanks to new members and their revenues in level 5 above you.

You get a new position, as soon as 75 new members occur in

your 5th level.

The next gratis position follows upon the next 75 new members, i.e. upon an overall number of 150 new members in your level 5.

As you can see, the New Position Bonus offers you continually new Media Points, which may be used for our multimedia offers. Needless to say that the Bonus also grants you repeatedly new income sources. Worth to mention: your new positions are always placed at the most favorable spot within the worldwide Friends Tree. Thus, you obtain new partners in your various Friends Trees who were not sponsored by yourself or your personal team.

Apart from many other facts, this system makes Futurenet the best Online Business available on the market.

People **business**

We invite you to become a member of our successful, globally operating Futurenet Multimedia Network Club. **Futurenet offers the most fascinating** and at the same time the most brilliant opportunity to develop your own online business.

The network marketing industry exists already for over 50 years. The pioneers had to work without mobile phones, internet and fax.

In the early years, network marketing concentrated primarily on contacts between people. In order to develop a successful network, the protagonists had to make phone calls and arrange personal meetings.

Guess, what works best to this day? Still today, in the era of the worldwide web, social media and other modern communication technologies, personal conversations and phone calls are the most effective method for success and high quotas.

The clue to success in network marketing are personal relationships and in the best case real friendships with other

people. Nothing can replace a personal face-to-face conversation.

Due to the introduction and development of modern communication technologies like the internet, e-mails, social media, google translator, webinars, etc., sales industry has changed completely.
